Guard Clocking System	Sponsored by MagTouch	http://www.mag-touch.com	How does it work? https://www.youtube.com/watch?time_continue=4&v=G1YdA-W4oRg
Bullet proof Vests	Sponsored by Veterans For Wildlife	https://www.veterans4wildlife.org	A ballistic vest or bullet-resistant vest, often called a bulletproof vest, is an item of personal armor that helps absorb the impact and reduce or stop penetration to the body from firearm-fired projectiles- and shrapnel from explosions, and is worn on the torso. Soft vests are made of many layers of woven or laminated fibers and can protect the wearer from small-caliber handgun and shotgun projectiles, and small fragments from explosives such as hand grenades

Greater Waterberg Security Initiative	Under guidance & leadership of STWR	https://www.waterbergrhino.com	
LPR Cameras	Under guidance & leadership of STWR	https://www.waterbergrhino.com	What are LPR Cameras? License plate capture cameras, also known as license plate recognition / LPR cameras, are a specialized CCTV camera that has built in software to help identify and record license plates on still or moving vehicles. Intelligent traffic modes built into specialized license plate recognition cameras allows the LPR Cameras to compensate for speed, weather, and headlight issues. "Normal" cameras do not have these functions making it impossible for them to capture license plates accurately. The images of the license plates are then filtered through a database which will flag high risk vehicles. These warnings are then circulated to the relevant authorities to action. - TCP

The Waterberg Biosfeer	Emoya is situated in the Waterberg Biosphere. The Waterberg Biosphere is a massif of approximately 15,000 square kilometers in north Limpopo Province, South Africa. Waterberg is the first region in the northern part of South Africa to be named as a Biosphere Reserve by UNESCO. The extensive rock formation was shaped by hundreds of millions of years of riverine erosion to yield diverse bluff and butte landform. The ecosystem can be characterised as a dry deciduous forest or Bushveld.	http://www.unesco.org/mabdb/br/brdir/directory/biores.asp?code=SAF+03&mode=all
