

### Emoya Meat Suppliers

From	To	No of Felids	Kgs fed per month	R / kg	Meat Type Fed	Notes	Supplier	Last known Email Address
2013 June	2015 August	6 - 8	810 - 1,080	R0	Venison only	Entire carcass was fed, including hide & intestines	Self-sustaining	
2015 September	2015 April	6 - 8	810 - 1,080	R10			Semi Self-sustaining	
							Coert Erasmus (game carcasses)	<a href="mailto:coera.jag@gmail.com">coera.jag@gmail.com</a>
2016 May	2016 May	42 - 44	5,670 - 5,940	R10	2/3 venison & 1/3 chicken	Dr Caldwell requested that only meat should be fed either on the bone or deboned as per the dental records. Hides and all intestines to be discarded. This influenced the R/kg dramatically. For example a zebra on the hoof weighs ±250kg. Slaughtered out ±130kg. It means that the carcass we paid for ±R2,500 (with hide & intestines) now only supplied 130kg of meat on the bone at R20/kg (undelivered).
