9	Joseph	On 13 May 2018 ±10:30 Joseph displayed abnormal behaviour. Videos were sent to Dr Caldwell immediately. With 1 hour we were notified that Dr Caldwell was on his way. Dr Caldwell contacted Mrs Creamer and explained that after discussing the video with a specialist, most probably Joseph had a brain tumor growing in a new direction causing the changed behaviour. Joseph was sedated and then put to sleep. Any further treatment would be academic. Joseph was taken to Onderstepoort the same afternoon.					
9	Ricardo	Good health & condition. Should consider adding ReJoint Supplementation. On 21 May 2018 Ricardo was released into the large enclosure.
