1A	Zeus	Good health & condition.	Neurobian 1x/ week	Up to date	Confortis	Milbemax	Confortis			
1A	Junior	Good health & condition.	Neurobian 1x/ week	Up to date	Confortis	Milbemax	Confortis			
1A	Bumba	Good health & condition.		Up to date	Confortis	Milbemax	Confortis			
1A	Cusco	Good health & condition. Bonding enclosure of 1A was divided into two parts. Double shade netting was attached to the fence which separated the two parts. Cusco was moved without sedation into the one half. He has access to 300 square meters as a living area and 100 square meters to be moved into for cleaning purposes. Since the move both Cusco as well as the remaining 5 family members are far more at ease. Scarc continued to challenge Cusco and the possibility of re-uniting the family was zero. No aggressive behaviour of Zeus, Junior or Bumba towards Cusco has been noted. No direct contact between Cusco and the other 3 males is possible. A separate enclosure for Cusco should be build.	Fluoxetine treatment.	Up to date	Confortis	Milbemax	Confortis
